A la Carte Treatments

GloLactic Peel/\$15

Glo Therapies created Lactic Peel for those who need effective regenerative treatments without aggressive after effects. Glo Therapies has extracted L+ Lactic Acid to inhibit cell regeneration while replenishing skin with much needed hydration. Lactic Acid is naturally present in our skin allowing Lactic Peel to work from the inside out, enabling the skin to slough off the deadened skin layers and stimulate fresh, healthy skin cells. Glo Lactic Peel is excellent for re-texturing acne scarring, hyper-pigmentation, environmentally damaged, and dehydrated skin.

GloFlowerEnzyme Peel/\$15

The GloFlowerEnzyme peel is specifically geared for clients with sensitive skin. This is a great beginner peel that can be done on a regular basis. GloFlowerEnzyme will treat dehydrated, photo-damaged, aging skin. Featuring an exfoliant with fruit enzymes to help break down dead cells for smoother skin. Your skin will be renewed and glowing.

GloGlycolic Peel (30%)/\$15

The Glo Glycolic Peel is a chemical exfoliant that promotes the repair and regeneration of the skin. It improves the appearance of aging and uneven textures and tone. The GloGlycolic Peel contains antioxidants that preserve the skins' natural moisturizing capabilities, strengthen capillaries and are anti-inflammatory.

Perfecting Plant Peel™

Advancing the science of chemical peels, this professional facial treatment helps retexture skin; smooth fine, dry lines; refine the look of pores; and restore radiance. Safe for acneic skin conditions, the Perfecting Plant Peel™ can be performed as a standalone treatment or added to any other facial treatment any time your skin needs the exfoliation and radiance benefits of a 30% glycolic peel procedure with less of the associated redness and irritation. **30 minutes/\$50**

Dual Exfoliation Peel

The Dual Exfoliation Peel is Aveda's latest advancement in non-invasive, skin-renewing treatments. Using innovative techniques, this treatment combines Aveda's naturally derived mechanical and biochemical exfoliation methods

into one powerful service that transforms and rejuvenates the skin through the process of dual exfoliation. The treatment delivers immediate, visible results in improved skin texture and radiance; smoothed appearance of fine, dry lines; and refined pores, revealing fresher, younger-looking skin. In a clinical study, the Dual Exfoliation Peel achieved better results than a combined

microdermabrasion/30% glycolic peel treatment in both immediate smoothness and radiance, plus significantly better results in smoothness, radiance and the appearance of skin tone one week later.
